EDUCATION

Computer Science and Engineering Netaji Subhash Engineering College

07/2019 - Present

Up to 2nd year YGPA : 9.09

Higher Secondary Education Contai High School

05/2016 - 03/2018

Percentage : 84.2

Secondary Education Contai High School

01/2010 - 04/2016

Percentage : 86.71

PERSONAL PROJECTS

Library Management System

- HTML , CSS , JS , DJANGO , db sqlite
- That manages and stores books information electronically according to students needs.
- The system helps both students and library manager to keep a constant track of all the books available in the library. It allows both the admin and the student to search for the desired book.

Video Calling/Chatting Application

- HTML , CSS , JS , DJANGO
- A social networking site that allows you to video chat online is the primary inspiration for my project.
- Here we can randomly select person those who are available in online.

College Management System

- HTML , CSS , JS , DJANGO , db sqlite
- The application offers reliability, time savings and easy control. It can be used as a base for creating and enhancing applications for viewing results , tracking attendance for colleges or any workplace. Students and their parents will also view attendance and curriculum details using this application.

To-Do Application

- HTML , CSS , JS , DJANGO
- Specially built to keep track of errands or tasks that need to be done . This application will be like a task keeper where the user would be able to enter the tasks that they need to do. Once they are done with their tasks they can also remove them from the list.
